# IMPERIAL TABLE I

## Area, Houses and Population.

The units in this and other Imperial Tables are arranged in a manner different from those for which statistics were given at the last Census. Since 1891 the residencies and political agencies comprised within the political charge of the Central India Agency have formed the units of presentation of Census statistics. As has been pointed out in Chapter I of the Report, these units are unsatisfactory as they obscure the figures for States which alone are useful. In this Census the States have been taken as the units of presentation of the figures and have been arranged to show separately all States having a population of more than 16,000. The remaining units have been grouped together under the political charge in which they lie. The units which are grouped and not exhibited separately—save in Imperial Table II—are detailed below:—

Agency.	Serial No.	States or Estates comprising the group.
1	2	3
Bhopal . . . . .	7 (b) Other States	{ 1. Muhammadgarh. 2. Pathari.
Malwa . . . . .	14. Rest of Agency	{ 1. Panth-Piploda. 2. Piploda.
Southern Central India States.	19 (b) Other States	{ 1. Jamnia. 2. Kathiwara. 3. Mathwar. 4. Nimkhora. 5. Rajgarh. 6. Ratannal.
Bundelkhand . . . . .	29. Rest of Agency	{ 1. Alipura. 2. Banka-Pahari. 3. Beri. 4. Bihat. 5. Bijna. 6. Dhurwai. 7. Garrauli. 8. Gaurihar. 9. Jigni. 10. Lugasi. 11. Naigawan-Rebai. 12. Sarila. 13. Tori-Fatehpur.
Baghelkhand . . . . .	34 (c) Other States	{ 1. Bhaisaundha. 2. Jaso. 3. Kamta-Rajaula. 4. Pahra. 5. Paldeo. 6. Taraon.

2. Since the Census of 1921, the Malwa and the Southern Central India States Agencies have been amalgamated into one political charge but for Census purposes they have been shown separately.

3. In each political charge the States have been arranged alphabetically.

4. The Khaniaadhana State lies outside the territorial limits of this Agency as it is under the political jurisdiction of the Resident at Gwalior. For Census purposes, however, it has been included under orders of the Government of India in the Central India Agency. In all the Imperial Tables the totals shown against Central India are inclusive of the figures for Khaniaadhana.

5. Compared with the figures of 1921 Census, the area of the Central India Agency shows an increase of 66 square miles which is accounted for as follows :—

Adjustments.	Area in square miles.
Area shown in Imperial Table I, Census Report, 1921 . . . . .	51,531
<i>Add—</i>	
(i) Area of Nandwai Pargana of Indore, which lies in the Rajputana Agency and which has, for Census purposes, been now included in Central India . . . . .	37
(ii) Area of the Pathari Estate in the Bhopal political charge which in 1921 Census was shown in Gwalior State . . . . .	29
(iii) Area of villages received from Gwalior by Indore (2.40 sq. miles) and Dhar (5.07 sq. miles) in exchange for Sundarsi . . . . .	7
	<hr/> 73
<b>Total</b> . . . . .	<b>51,604</b>
<i>Deduct—</i>	
(i) Area of Indore (3.56) and Dhar (3.56) States portions in Sundarsi transferred to Gwalior State . . . . .	7
	<hr/> 7
<b>Net area shown in this Table</b> . . . . .	<b>51,597</b>

*NOTE.*—The area of the two villages of Sheogsrh and Abheypur held by Rajgarh State from Gwalior being unknown could not be adjusted.

6. The area and population of the places under British Administration in Central India, are as follows :—

Administered Areas.	State.	Area in sq. miles.	Population.		
			Persons.	Males.	Females.
1	2	3	4	5	6
1. Mhow Cantonment . . . . .	Indore . . . . .	5.75	31,177	17,496	13,681
2. Nowgong Cantonment . . . . .	Chhatarpur . . . . .	6.55	5,794	3,166	2,628
3. Indore Residency . . . . .	Indore . . . . .	1.35	15,197	8,874	6,323
4. Bhopal Agency Head-quarters, (Bhopal). . . . .	Bhopal . . . . .	.05	118	74	44
5. Bundelkhand Agency Head-quarters, (Nowgong). . . . .	Chhatarpur . . . . .	.95	665	430	235
6. Baghelkhand Agency Head-quarters, (Sutna). . . . .	Rewa . . . . .	.14	210	143	67
7. Manpur Pargana . . . . .	British . . . . .	49.00	6,852	3,582	3,270
	<b>TOTAL</b> . . . . .	<b>63.79</b>	<b>60,013</b>	<b>33,765</b>	<b>26,248</b>

They have been included in the Tables, excepting those of Manpur which is shown separately; in the figures of the States in which they are situated.

7. The Civil Station of Sehore which in the Census of 1921 was shown to be under British Administration has since been retroceded to Bhopal State. Subsequent to the 26th of February, 1931, a portion of Indore Residency has been retroceded to Indore. The population of the retroceded area is 10,807 (males 6,201 and females 4,606).

8. Population statistics by administrative divisions for all the principal States and for other States and Estates and also for the guaranteed Estates will be found in Provincial Tables I and II.

# IMPERIAL TABLE I.

## AREA, HOUSES AND POPULATION.

*Notes.*—1. The number of units in this and the other Imperial Tables differs appreciably from the number for which statistics were compiled in 1921. In 1921, the territory now known as the Western India States Agency, was included in the Bombay Report, whereas on this occasion it has been decided to exclude it and to prepare a separate Report for the Agency. In consequence the volume of statistics accompanying the General Report for 1931 contains details only for

(a) British Districts.

(b) Those States and Agencies which are under the control of the Government of Bombay.

(c) Aden.

Nevertheless, the gross figures for the Western India States Agency have been inserted, in order to facilitate comparison. Further, in dealing with the units comprising (b) above, individual figures have been given for a larger number than in 1921. In consequence the number of units in Table I has increased from 62 to 75.

2. The area of the Thana District has been further depleted by the transfer to the Bombay Suburban District, of seven villages which have been formed into a new Taluka known as the Ambernath Taluka. The Bombay Suburban District therefore, now, comprises the two talukas of South Salsette and Ambernath and the District itself has been transferred from the jurisdiction of the Commissioner, Bombay Suburban Division, to that of the Commissioner, Central Division.

3. The figure of population of Ahmedabad District given in Tables I, II and III differs from that of other Tables in consequence of the fact, that in the first four Tables, the population of the Ahmedabad Municipal Area has been estimated at 310,000 whereas in the remaining Tables, the figure shown is the one obtained by enumeration on the night of the Final Count.

4. The area shown in this Table for (i) British Territory, (ii) The Bombay States and Agencies is 151,593 square miles as against 151,523 in 1921—a net gain of 70 square miles. The details of this increase are given below :—

### Gain.

### Loss.

District or Agency.	Extent in square miles.	Cause.	District or Agency.	Extent in square miles.	Cause.

5. The object of this Table is to specify for each named territorial unit, the number of Towns and Villages, the number of Occupied Houses, and the total Urban and Rural population in the unit.

6. In column 3 the word "Towns" means places having a population of 10,000 or more.

7. In column 4 the term "Village" means a Revenue Village other than (i) those which are merged in Cities and Towns and (ii) those which on the night of the Census were uninhabited.

8. In columns 5, 6 and 7 "Occupied Houses" means Census houses. House is variously defined according to local conditions. But the tendency is to define a House as the residence of a commensal family. But any building which contained a single individual on the Census night was reckoned as an "Occupied House".

9. The term "Urban" has been applied to persons enumerated in those places treated as Cities or Towns for the purposes of Imperial Tables IV and V. "Rural" connotes population enumerated in all other places.

10. Every Cantonment area has been treated as a separate Town.

11. The details of the population by Talukas are given in Provincial Tables I and II.

## IMPERIAL TABLE II.

### Variation in Population since 1881.

This table compares the population of all the States and Estates comprised in the Central India Agency as ascertained in the Census of 1931 with that of the five previous censuses. The population returned at the previous censuses has been corrected as far back as 1901 to allow for transfers since the Census of 1921. Owing to the destruction of the registers of the 1881 Census and to the absence of all Pargana figures for 1891 Census, figures previous to the Census of 1901 are not available and hence further adjustments have been impossible.

2. The Nandwai Pargana of Indore situated in the political charge of the Rajputana Agency was, in previous censuses, shown in that Agency. Its figures are now included in those of Indore of which it forms an integral part.

3. The figures of Pathari (Nawab) Estate in the Bhopal Political Agency were, in 1921 Census, transferred to Gwalior State along with those of the other feudatory holdings of that State. The position of this Estate has since been declared to be independent of Gwalior and its figures have therefore been again included in Central India.

4. The figures for the two villages of Abheypur and Sheogarh held by Rajagrh State on Istimurari tenure from Gwalior could not be excluded from those of the Central India Agency in 1921 Census owing to late decision in their case (vide note to the Tables part of the Census Report, 1921). The necessary adjustment has now been made.

5. In addition to these changes, there has been an exchange of territory between the States of Indore and Dhar in Central India and Gwalior. The village Sundarsi which was in the joint possession of the three States has now been wholly transferred to Gwalior which has surrendered certain other villages in exchange.

6. The adjustments of population consequent on the transfers noted above are given below :—

## IMPERIAL TABLE III.

### Towns and Villages Classified by Population.

1. Where there has been Revenue Survey, the Survey village has been taken as a Census village. Elsewhere it is the residential village or group of houses, such as, Bhil Paras, bearing a separate name. Small outlying hamlets have been treated as part of the main residential village to which they appertain.

2. Encampments and travellers enumerated in trains have been shown separately in this table only. Elsewhere and for all other purposes they have been included in the population of the town or village in which their enumeration was carried out.

3. Persons enumerated within railway premises (other than those enumerated in trains) have been included in the villages or towns within the boundary of which such premises are situated.

## IMPERIAL TABLE IV.

### Towns Classified by Population with Variation since 1881.

This table shows the population of towns. Sex figures are given for three decades only and the variation in population for the last 50 years. The population of the places shown in this table for the Censuses at which any of them were not treated as towns has been given, where available, within brackets, but it is not included in the totals of urban population, nor has it been taken into account in calculating the variations. Except for 1931, the class totals are not the totals of the figures given below them but represent the whole urban population recorded at each Census.

2. A town was defined as including (1) every Municipality, (2) all Civil Lines not included within Municipal limits, (3) every Cantonment and (4) every other continuous collection of houses, inhabited by not less than 5,000 persons which the Provincial Superintendent may decide to treat as a town for Census purposes. In States where there are no Municipalities, this rule has been widely applied so as to bring certain places under category (4).

3. Towns have been arranged in six classes and according to population within the class.

Class.	Limits of population.	Number of Towns.
I	2	3
I	100,000 and over . . .	1
II	50,000 to 100,000 . . .	1
III	20,000 to 50,000 . . .	4
IV	10,000 to 20,000 . . .	11
V	5,000 to 10,000 . . .	24
VI	Under 5,000 . . .	15
	TOTAL . . .	56

4. The number of places treated as towns in 1921 was 51. Of these Sehore (Station) which was under British Administration and where the head-quarters of the Political Agent in Bhopal were located has, during the past decade, been made over to Bhopal State under whose administration it has been combined with the adjacent town of that name. Both these places were shown as separate towns in all the previous Censuses and combined figures have now been shown against Sehore. Six new places, viz., Ali-Rajpur, Alot, Anjar, Badnawar, Dharampuri and Rajpur are being treated as towns for the first time in the present Census. The total number of towns thus comes to 56.

Places treated as towns for the first time.	Population in 1931.	State.	Reason for inclusion.
1	2	3	4
1. Ali-Rajpur . . . . .	5,148	Ali-Rajpur . . .	Capital town of the State with a population of over 5,000.
2. Anjar . . . . .	4,833	Barwani . . .	
3. Rajpur . . . . .	5,104	Barwani . . .	
4. Alot . . . . .	4,691	Dewas (Senior) . . .	A flourishing trade centre of local importance.
5. Badnawar . . . . .	5,197	Dhar . . .	
6. Dharampuri . . . . .	3,753	Dhar . . .	A local trade centre with some historical importance.
			A place of pilgrimage and antiquity.

5. The following statement shows the net variation during the decade 1921-31 in the places treated as towns at both Censuses.

Agency.	Places treated as towns in 1921 but now omitted.		Places now treated as towns which were not so treated in 1921.		Net variation in decade 1921-31 due to differences in the list of towns.	Variation in aggregate population of places which were treated as towns at both Censuses.
	Number.	Aggregate population in 1921.	Number.	Aggregate population in 1931.

## IMPERIAL TABLE VII.

### Age, Sex and Civil Condition.

The age shown in this table represents the age as it was or would have been on the birthday nearest to the date of enumeration, that is, to the nearest approximate number of years. Divorced persons have been entered as "Widowed". Persons who are recognized by custom as married have been shown as such even though they have not gone through any recognized formal ceremony.

2. The table is divided into three parts. Part A shows the distribution for the Agency as a whole of the total population and of the population of each religion returned. Part B shows the distribution of the population in principal States for main religions, but in this part the age statistics have been given in less detail than in the Agency summary. Part C gives similar details for Cities.

**TABLE VIII**

---

**Civil Condition by Age for Selected Castes.**

This table does not give statistics for the Agency as a whole. A few castes of local importance have been chosen from some of the principal States. The total figures for Banias, Brahmans and Rajputs and for Muslims, where given, do not represent the full strength of the caste or religion but only the total of the main sub-castes or classes that were selected for the table. In most cases Hindus and Jains have been combined under Banias and Hindus and Tribals under Tribal groups, such as, Bhil, Bhilala, Gond, Kol and Korku.

## IMPERIAL TABLE IX

### Parts I and II. Infirmities.

The infirmities recorded at the Census were insanity, deaf-mutism, blindness and leprosy.

2. The table is divided into 2 parts—Part I shows the distribution of the persons afflicted according to age and Part II their distribution according to locality.

3. Dual infirmities were recorded. Persons afflicted with two or more infirmities have been shown under each of the infirmities in question in columns 5 to 16. The figures in columns 5 to 16 being the number of cases and not strictly the number of persons, the total afflicted in columns 2 to 4 does not quite agree with the total of the figures for each separate infirmity. The following is a list of these dual infirmities :—

Infirmities.	Total.	Males.	Females.

TABLE XIII

## Literacy by Religion and Age.

This table is divided into 3 parts. Part A shows the extent of literacy in the Agency as a whole amongst the total population and for the population of each religion returned. Part B gives details for all the principal States and for the main religions but in this Part age-periods below 15 have been grouped together. Part C gives similar information for the cities. Particulars of vernacular literacy which was tabulated in this Agency are given in the Appendix.

2. The figures for persons literate in English (columns 12 to 14) are included in those for total literate (columns 6 to 8). The test of literacy was ability to read and write a letter and that of literacy in English was whether the enumerated could write and read a letter in English as well as speak it.

3. This table corresponds to Table VIII of 1921. The lowest age group 0-10 given in the table of 1921 has been divided this time into 0-5 and 5-10.

4. The following statement shows the literates amongst the Indian Christians and other Christians separately.

## IMPERIAL TABLE XIV

---

### Literacy by Selected Castes, Tribes or Races.

The information given in table XIII relates to the whole population by Religion and Age whereas this table deals with population 7 years and over only of selected castes and sub-castes or tribes which are considered of local importance. The figures shown against Brahman, Rania and Rajput do not represent the total strengths of those castes but of certain selected sub-castes or septs only. The object of this table is to show the progress of education amongst the different classes of the community. In the State Reports a very large number of castes have been dealt with. For the Agency as a whole statistics are given only for a sufficient number of representative castes to show the degree and the penetration of literacy in the different social strata.

2. Without attempting a meticulous classification into advanced, intermediate and backward castes based on any percentage criteria, the castes selected have been so arranged as broadly to fall into the above 3 classes and included in the backward castes are the depressed classes, criminal tribes, primitive tribes and other backward castes. Below each caste are shown the principal States which are arranged in order according to the proportion of literate persons returned in each.

3. As in Table XIII the figures for persons literate in English (columns 11-13) are included in those for total literate (columns 5-7).

4. The total strength of a caste in this table does not necessarily agree with that in table XVII as the latter may include figures added in course of classification. This table is not comparable with table VIII as the latter is not compiled for the Agency as a whole but only shows figures for certain castes in few typical and different areas.

TABLE XV.

## Part I.—Language.

In this Table languages are shown in three parts:—

Part A.—Vernaculars of India—(i) Vernaculars of Central India and (ii) Vernaculars of India foreign to Central India.

Part B.—Vernaculars of other Asiatic Countries and Africa.

Part C.—European languages.

The languages are not arranged in alphabetical order but according to the revised scheme of classification in the Linguistic Survey. The principal vernaculars of Central India are Hindi (which includes Eastern and Western Hindi), Rajasthani, Gondi and Bhili. Only the more important of the dialects recorded have been shown in the table, the rest being relegated to the Appendix.

2. Cross-grouping by linguistic families is shown in Chapter X of the Report.

3. Sir George Grierson's scheme has been followed in classifying the various returns of dialects. In the case of returns not found in Sir George's Index classification has been made on the basis of the last Census Report and according to local information. Returns falling in the latter category have been marked with an asterisk in the Appendix.

4. In each of the three parts languages which are too localised or spoken by a small number of people have been grouped together under "Other Languages." A list of these together with the principal States where they were returned is given below:—

## IMPERIAL TABLE XVII.

---

### Race, Tribe or Caste.

This table is divided into two parts :—

Part I gives the distribution by States of the principal castes with the Religions under which they were returned. Where the figures for other than the main Religion were small or limited to few States only, they have been included in those for the main Religion and details of the number thus included have been shown in the Remarks column. The castes selected are those of general dispersion. For Banias, Brahmans and Rajputs sub-castes of local importance have been shown. The Jains have been shown under Banias.

Part II gives in alphabetical order all the castes returned by the population enumerated in the Agency other than those shown in Part I. They are mainly minor or localised castes. In certain cases of importance, ethnographic or otherwise, the principal localities from where they are returned have also been shown.

2. As far as possible doubtful entries have been classified and amalgamated with the castes to which they appeared to belong but still a certain number could not be affiliated with any known caste even after enquiry. They have been clubbed together under "Unspecified." They consist of few perverse entries and mostly of obscure names arising out of the tendency of the enumerator in recording the peculiar pronunciation and solecisms of the enumerated, embellished or mutilated as the case may be, by the euphony of the enumerator.

3. The figures for Aryas, Brahmos, Hindu others, Sikhs, Christians, Zoroastrians, Buddhists and Jews are omitted from the Table.

## PROVINCIAL TABLE I.

### Area and Population of States.

In this table statistics relating to area, occupied houses, total population, variation since 1911 and density are given for the administrative units of each State, viz., Town, Tahsil, Pargana, Nizamat or whatever the local appellation is. The figures for the guaranteed holdings are included in those of the Suzerain States as well as shown separately under them. Nimkhara, Rajgarh and Jamnia have been shown separately only in respect of the holdings held on prescriptive right from the British Government. The figures for British Cantonments and Administered Areas have been included in those of the States within whose territorial jurisdiction they lie and also have been shown separately under them.

2. The units are arranged in the same sequence as in the Imperial Tables.

3. The census of Basoda Estate in the Bhopal Political charge was taken by the Central India Agency but under the orders of the Hon'ble the Agent to the Governor General in Central India, the enumeration books were transferred to Gwalior and its figures have been included in those of Gwalior. As the Estate is being treated as an independent unit in the Bhopal Agency pending final decision of its status *vis-à-vis* Gwalior, its population, though not shown in any table, is noted below :—

Persons.	Males.	Females.
4,422	2,316	2,106

4. The figures for Khaniadkhana in Gwalior Residency have, under the orders of the Government of India, been included in the Census statistics of the Agency, and are separately shown in this table.

5. The figures for the two villages of Sheogarh and Abheypur held by Rajgarh from Gwalior on Istamurari tenure which have been excluded from the figures of the former State are noted below :—

Village.	Persons.	Males.	Females.
1. Sheogarh . . . . .	305	155	150
2. Abheypur . . . . .	70	42	28

6. The figures of area given against the State as a whole represent the area recorded in the previous Census Report duly adjusted for any subsequent transfers during the decade while those shown in brackets represent approximate areas according to the information furnished by the States. The density has been calculated on the recorded areas where available.

7. 36 towns treated as such for State purposes and not included in Imperial Tables IV and V are marked with an asterisk. The two towns of Dewas and Sarangpur jointly possessed by the two Dewas States (Senior and Junior) which are shown together in the Imperial Tables are shown here separately in portions held by them. Thus the total number of towns shown in this table exceeds that given in Imperial Tables IV and V by 38.

## PROVINCIAL TABLE II.

---

### Population of States (and their Administrative Divisions) by Religion and Literacy.

The arrangement in this table follows that of Provincial Table I and a reference should be made to the explanatory note to that table.

2. This table gives for administrative units of States, where available, details of religion for Hindus (Brahmanic), Jains, Sikhs, Muslims, Christians and Tribals together with the number of literates by sex under each religion. The remaining religions have been amalgamated under "Others". The Hindus have been divided into 3 categories, viz., Brahmans, Other Hindus and Depressed Classes. The following is the list of castes treated as depressed for the purposes of this table :—

1. Balai, 2. Bhambi, 3. Bansphor (Basor), 4. Bhangi (Mehtar), 5. Chamar, 6. Dharkar, 7. Dher, 8. Dom, 9. Domar, 10. Jhamral, 11. Mahar, 12. Mang, and 13. Meghwal.

3. The table also shows the distribution of literacy by age and sex as well as the total number of literates in English. The figures (Columns 38-45) given against the administrative units in most cases represent those for the main religions only and are exclusive of the figures for religions which, owing to their small numbers, were sorted for the State as a whole. Necessary remarks have accordingly been added against the entries concerned. The age-groups given in this table are the original sorter's groups and the figures are not comparable with the smoothed figures shown in Table XIII. The total number of literates given in this table (Columns 38-43) slightly exceeds that shown in Imperial Table XIII as in the process of smoothing half the returns in the original age-group 4-6 were transferred to the final age-group 0-5 and treated as illiterate in that table.
